

Steel Drop Balls

for crushing stones

The alloy FK10, the HOFFMANN-steel drop balls are made of, is specially developed for this kind of application. This alloy is also very reliable in the hard conditions in basalt and granite mines.

HOFFMANN-steel drop balls are available in following sizes and weights:

V005115	V003336	V002625	V000998	V000786	V001227	V000737
Ø 720mm	Ø 875mm	Ø 920mm	Ø 1.000mm	Ø 1.050mm	Ø 1.130mm	Ø 1.180mm
1.400kg	2.500kg	3.000kg	3.900kg	4.500kg	5.600kg	6.400kg
